PROFILE

Computer Engineering graduate and Dynamic Mobile Application Developer with 1 year of hands-on experience in crafting cross-platform applications using Flutter and Dart. Expertise lies in architecting scalable solutions through the MVC design pattern and implementing advanced state management with GetX to drive high performance. Committed to delivering intuitive, user-friendly applications while maintaining code quality through clean coding practices. Passionate about integrating complex APIs to enhance functionality and improve user experiences. Ready to leverage technical skills to create impactful mobile solutions that resonate with users.

PROFESSIONAL EXPERIENCE

Mobile Application Developer, DOĞUŞ TEKNOLOJİ 08/2024 – 07/2025
İstanbul

- Developed and maintained the **sensat.com** mobile application using Flutter and Dart, delivering a seamless cross-platform user experience.
- Implemented advanced state management solutions with GetX, ensuring high performance and app responsiveness.
- Architected scalable and testable codebases by applying the MVC design pattern.
- Integrated RESTful APIs to facilitate efficient backend communication and data handling.
- Collaborated with UI/UX teams to translate design concepts into intuitive, user-friendly interfaces.
- Optimized application performance and addressed technical debt to maintain code quality and stability.
- Worked in an Agile environment and actively participated in sprints and daily stand-ups to ensure timely project delivery.

Software Development Intern, İES SOFTWARE 06/2023 – 08/2023
İstanbul

- Contributed to the development of web applications using ASP.NET Core and MVC technologies.
- Designed and implemented RESTful APIs to support client-server communication.
- Managed database operations and optimized queries using SQL to ensure data integrity.
- Applied clean code principles and best practices in software design.

EDUCATION

Bachelor of Science, Computer Engineering, MEF University 09/2020 – 01/2026
İstanbul

TECHNICAL SKILLS

- Dart
- MVC
- C#
- Entity Framework
- Java
- Git
- Python
- GitHub
- SQL
- REST APIs
- Flutter
- VS Code
- GetX
- MS SQL Server
- ASP.NET Core
